**Bedding Mortars and Repair**

**HIGH PERFORMANCE BEDDING MORTAR**

The environmentally friendly alternative to resin-based materials, specifically formulated for the bedding of all access covers, and is particularly suitable for use in wet weather conditions. Superior compressive, tensile and flexural strengths are achieved within 3 hours.

**Advantages**
- HAPAS Approved
- Conforms to HA104/09
- Approved for use on the London Underground
- Workability: 15 minutes
- Set time: 30 minutes
- Depth: 10mm-50mm
- Open to traffic: 1 hour
- 51N/mm² compressive strength in 3 hours
- 5.8N/mm² tensile strength in 3 hours
- 9.8N/mm² flexural strength in 3 hours
- Contains recycled glass
- Can be used at temperatures as low as 1°C

**ALL PURPOSE FAST SET MORTAR**

Ideal for bedding access covers and general repairs.

**Advantages**
- Approved for use on the London Underground
- Workability: 5-10 minutes
- Set time: 20 minutes
- Depth: 10mm-50mm
- Open to traffic: 90 minutes
- 21N/mm² compressive strength in 2 hours

**COLD LAY ASPHALT CONCRETE**

For permanent repairs in type 3 and 4 roads.

**Advantages**
- HAPAS Approved
- Approved for use on the London Underground
- Suitable for planned and reactive repairs
- Can be used in all weathers
- Instantly trafficable
- Use with SCJ Seal and Tack spray for a permanent repair
