

**Independent** Specialist Suppliers to the Construction and Building Industry

## **Precon Products announce UK partnership with Five Star Products: Product Range Launch 2022**

Five Star Products have launched into the UK Market, offering innovative new Precision Concrete Repair and Grouts alongside market-leading products, exclusively available through premier construction supply provider Precon Products. “We are very excited to be entering directly into the UK Market with our comprehensive range of products and Precon Products as our distribution partner”, commented Michael Harvey, Five Star Products President and CEO.

Five Star Products Inc. is a US-based manufacturer in precision cementitious, epoxy-based grouts and specialty concrete repair products. It is already an established brand in the UK, representing superior quality and precision performance with products such as Five Star Grout, Five Star Structural Concrete and Five Star DP Epoxy Products which first arrived in the late 1980’s via a successful licensing and distribution partnership with Stuart B Dickens. The licensing and distribution partnership was then passed on to Weber Limited and recently Saint-Gobain. This partnership with Weber-Saint Gobain will end by December 31, 2022. Precon Products will take over the distribution as of immediate effect.

Precon Products Ltd is a leading national supplier of construction products in the UK. Founded in 2008, it has grown to a multi-million-pound company, operating a national delivery service out of five depots, with further depots to be opened in 2023. It supplies thousands of companies nationwide from builders merchants to international leading providers of infrastructure, construction and refurbishment. “We are thrilled to be exclusively supplying Five Star products to the UK market’, Mike Philpot Precon Products Managing Director commented, ‘Our aim has always been to provide the United Kingdom with the highest quality, innovative, reliable and specialist construction products and this partnership with Five Star is the perfect opportunity to expand upon this commitment’.

The Five Star UK product range is now available from Precon Products with further products being introduced in September. For more information visit [www.precon-products.co.uk](http://www.precon-products.co.uk) or contact our dedicated sales team.
